The Super Quick Install Guide

Okay, so purchasing **TONS** of fonts for less than $30 in one pack is great right? But what about when it comes to installing all of them? Doing this one by one can be quite a lot of work. But not anymore! Read our detailed guide below, and discover how to install all of these fonts in just a few minutes.

1) Once you have downloaded your pack. Open up the main file and locate the following folder "2. Quick Install (fonts only)".

2) Select all fonts included within this folder. You can do this by dragging your mouse over all the files included.

3) The third step depends on the computer and operating system you have.
Please locate this via the options below.

For Windows 8/7/Vista

• Once you have selected all fonts within the folder, right click and select "Install".

For Windows (early versions than above)

• Locate your fonts folder, by following these steps

> Start Menu > Control Panel > Appearance and Themes > Fonts

• Next simply drag the selected fonts across from the downloaded file to the "Fonts" file you have just opened.

For MAC

• Once you have selected all the fonts within the folder, simply double click on any font within that selection. Please give your computer a few minutes. You will notice the standard font installation pop ups appearing, simply click install on each one by one.

There you go, less time installing and more time designing and crafting. If you have any issues, questions or queries please don't hesitate to contact us on
